Instruction Disclaimer

Dennis Kirk provides instructions to help our customers better understand how to install the products we sell. The instructions are exact copies of what the manufacturer includes with the product being sold.

That means the quality and accuracy of the instructions is solely dependent on what the manufacturer produces. We do our best to make the text legible and the pictures viewable. However, the end result depends largely on the quality of instructions the manufacturer provides.

Therefore, you will find that some instructions are not of the highest quality. Sometimes text is hard to read and pictures are not easy to see. At times you will find the overall look of the instructions to be less than professional. However, we feel it is better to provide what we have rather than provide nothing at all.

To the best of our knowledge the instructions and application information contained in the instructions is accurate. However, Dennis Kirk assumes no liability related to any errors that may be contained in the copy of the manufacturer’s instructions we provide. Buyers are solely responsible to insure that product use is consistent with their application.

If you have any questions please contact us at customerservice@denniskirk.com or 800-969-7501 so we can further assist you regarding additional product information or any other business related questions.

Thank you for doing business with Dennis Kirk.
CLEANING AND MAINTENANCE

For proper cleaning, wash with a mild soap or detergent and lukewarm water. Use Slipstreamer Cleaner/Polish to keep the plastic looking like new. To remove small scratches or scuffs, use Slipstreamer Remover. After scratch removal you must polish the shield with Slipstreamer Cleaner/Polish to bring back the luster. Any drying of the shield should be done with a clean, soft cloth or damp chamois. (Cloth baby diapers or microfiber clothes are preferred.)

DO NOT USE PAPER TOWELS

WARNING:

NEVER USE ABRASIVE CLEANERS, HOUSEHOLD CLEANERS, GLASS CLEANER, GritTY CLOTHS, PAPER TOWELS OR STRONG SOLVENTS SUCH AS ALCOHOL, AMMONIA, ACETONE, CARBONTETRACHLORIDE, ETC. ALSO, PRODUCTS SUCH AS RAIN-X OR ARMORALL SHOULD NOT BE USED AS THESE PRODUCTS WILL BREAKDOWN THE PLASTIC CAUSING SPIDER CRACKING CALLED "CRAZING"

DO NOT USE LOCTITE ON ANY OF THE FASTENERS AGAINST THE PLASTIC.
