Instruction Disclaimer

Dennis Kirk provides instructions to help our customers better understand how to install the products we sell. The instructions are exact copies of what the manufacturer includes with the product being sold.

That means the quality and accuracy of the instructions is solely dependent on what the manufacturer produces. We do our best to make the text legible and the pictures viewable. However, the end result depends largely on the quality of instructions the manufacturer provides.

Therefore, you will find that some instructions are not of the highest quality. Sometimes text is hard to read and pictures are not easy to see. At times you will find the overall look of the instructions to be less than professional. However, we feel it is better to provide what we have rather than provide nothing at all.

To the best of our knowledge the instructions and application information contained in the instructions is accurate. However, Dennis Kirk assumes no liability related to any errors that may be contained in the copy of the manufacturer’s instructions we provide. Buyers are solely responsible to insure that product use is consistent with their application.

If you have any questions please contact us at customerservice@denniskirk.com or 800-969-7501 so we can further assist you regarding additional product information or any other business related questions.

Thank you for doing business with Dennis Kirk.
Part No. 2320-0117
MEB1854
REVISION 0

Plates Only, Black
MS Gauntlet Fairing
HD XL1200X Sportster Forty Eight

Aluminum parts are electrocoated (E-coated) for durability and weather resistance.

Before assembly, read Warnings inside

⚠️ WARNING ⚠️

1. During installation, make sure that the fairing and hardware do not interfere with any cables or wiring when the forks are turned all the way in either direction. Also make sure, through the full range of adjustment, that the fairing and hardware do not hit the gas tank.

2. This is a detachable fairing, ALWAYS make sure the locking mechanism is fully engaged after installing the fairing.

3. The improper installation of this kit and related components could result in serious injury or death.

⚠️ CAUTION ⚠️

1. Memphis Shades fairings are made from Lucite® acrylic, and will last for years with proper care. Clean your fairing with plenty of soapy water (mild dishwashing liquid is best) and a soft cotton cloth. Use your bare hands to feel and dislodge bugs, or cover with a wet, soapy towel and let it soak. Don’t use paper towels and scrape with anything. Small scratches can be removed with NOVUS #2.

2. Never use any glass cleaning products, petroleum based chemicals, or cleaning agents with ammonia, bleach or any other harsh chemicals. This includes (but not limited to) Rain-X, brake fluid, acetone, paint thinner, benzene and gasoline. “If it hurts your nose, it will hurt the plastic.”

3. Glass cleansing agents will cause severe damage to your fairing, and will void your warranty.

For care and cleaning we recommend using Memphis Shades All Kleer, a unique cleaner/polish, bug remover and rain repellent that leaves a super slick surface that makes the next cleaning even easier.

4. At certain times of the day the Sunlight can reflect off the curvature of a fairing and cause extreme heat build-up on motorcycle instruments and instrument panel. Take care when parking. Park facing the sun, place an opaque object over the instruments or adjust the fairing to avoid reflections.

2. Mounting Instructions

Additional tools required that are not included in this kit: 7/16 or 11mm wrench.

1. Cover gas tank and front fender with towels to avoid damage during installation.

2. Install the Mounting plate assemblies ② and ③ onto the fairing, using the bolts that are pre-assembled on the Mounting plate assemblies.

The Santoprene grommets should be inserted through the holes in the fairing so that the flat round part of the grommet lies flat on each side of the plastic. Tabs point in towards the headlight. (Fig. 1)

3. Slip the fairing mounting plates and fairing onto the fork clamps. (Fig 2) and secure the left and right side locking mechanism.

4. Adjust the height, angle and alignment of the fairing and tighten ALL bolts.

Note: This is a detachable fairing, ALWAYS make sure the Locking Mechanism is Fully Engaged after installing the windshield! (Fig 3)

For Parts and Warranty Help, Contact:
Memphis Shades, Inc.
P.O. Box 429
Rossville, TN 38066
