Instruction Disclaimer

Dennis Kirk provides instructions to help our customers better understand how to install the products we sell. The instructions are exact copies of what the manufacturer includes with the product being sold.

That means the quality and accuracy of the instructions is solely dependent on what the manufacturer produces. We do our best to make the text legible and the pictures viewable. However, the end result depends largely on the quality of instructions the manufacturer provides.

Therefore, you will find that some instructions are not of the highest quality. Sometimes text is hard to read and pictures are not easy to see. At times you will find the overall look of the instructions to be less than professional. However, we feel it is better to provide what we have rather than provide nothing at all.

To the best of our knowledge the instructions and application information contained in the instructions is accurate. However, Dennis Kirk assumes no liability related to any errors that may be contained in the copy of the manufacturer’s instructions we provide. Buyers are solely responsible to insure that product use is consistent with their application.

If you have any questions please contact us at customerservice@denniskirk.com or 800-969-7501 so we can further assist you regarding additional product information or any other business related questions.

Thank you for doing business with Dennis Kirk.
2014-UP INDIAN SCAUST 3" REPLACEMENT MUFFLERS INSTALLATION INSTRUCTIONS

READ ALL INSTRUCTIONS BEFORE BEGINNING INSTALLATION

| PARTS LIST | 1 = 5/16" x 1/4" Hex Head Bolt | 2 = 5/16" Flat Washers | 1 = 5/16" Flange Nut |

Bassani 3" Replacement Mufflers

1. Upper Muffler with 1 3/4" ID x 14" long Baffle (B17P14)
2. Lower Muffler with 1 3/4" ID x 14" long Baffle.
3. 85178C = Slash Cut Billet Aluminum Chrome End Cap (BE305C-2)
   85178SB = Slash Cut Billet Aluminum Black End Cap (BE305SB)

EXHAUST SYSTEM

Part # 85178SB: Mufflers and End Caps will be Black

POWER YOU CAN FEEL
1. Remove stock slip on mufflers from the head pipes. Retain the stock clamps. The nuts and bolts will not be needed.

2. Install new Bassani slip-on mufflers using the stock clamps at the slip joint. The lower muffler attaches on the front side of the stock mounting bracket. (Photo #1)

3. The upper muffler attaches on the backside of the stock mounting bracket. (Photo #2)

4. Use the supplied 5/16” Bolt, Washers and Flange Nut to hold the two muffler tabs as shown.

5. Adjust the spacing between the muffler and the length to be as even as possible. Tighten the clamps and mounting bolt in this position.

6. Wipe down the mufflers with a non abrasive cleaner and a soft clean cloth to remove any grease or fingerprints, before starting the motorcycle.
Thank you for choosing Bassani Xhaust.

The following information is provided to help you enjoy the added benefits of riding with Bassani.

**EXHAUST CARE AND MAINTENANCE**

- Due to the effects of normal engine vibration you should check hardware frequently.
- Clean with a soft cloth and Rubbing Alcohol or glass cleaner to remove fingerprints and any residue prior to starting. Fingerprints or any residue will stain the finish when pipes get hot.
- **DO NOT** use an abrasive cleaner or coarse cloth on any chrome plated surface.
- Use glass cleaner and a soft clean cloth to shine and maintain brilliance.
- Cure the finish (chrome or coated) by running the engine at idle/low rpm for 30 seconds to 1 minute. Stop engine and allow pipes to cool. Repeat this step 3-4 times.
